DEPARTMENT OF UROLOGY

MEDICAL UNIVERSITY OF VIENNA

The 5th Michael J. Marberger Annual Meeting is an intensive, interactive, half-day educational program that brings together renowned international experts in the fields of urology to discuss Frontiers in Urologic Oncology 2019.

The meeting will focus on key clinical topics in the management of urologic diseases including prostate, bladder and kidney cancers. On December 13, state-of-the-art lectures will provide clinicians and scientists with an update of the breakthroughs of 2019 to maintain their high level of care and further optimize their outcomes.

Target Audience
This educational activity is directed toward urologists and other health care providers involved in the treatment and management of patients with urologic malignancies.

Learning Objectives
At the conclusion of this activity, participants should be better prepared to:
• Describe the newest methods for diagnosis and information that can provide the rationale for clinical decision-making.
• Summarize recommendations that shape current strategies to care for patients.
• Develop multidisciplinary strategies to optimize outcomes for patients.
• Assess recent practice-changing clinical trial findings concerning novel tools, compounds or strategies.
• Apply emerging clinical concepts to support the management in consideration of evolving treatment paradigms in the field.
