Please be aware that photographs and/or video footage will be taken at the event. These may be used for the purpose of documenting or reporting the event and published in print and online media, on various social media platforms and on MedUni Vienna’s website.
Dear colleagues!

I am very delighted to welcome you to the Meeting on “Molecular Markers in Neurosurgery” at the Medical University in Vienna/Vienna General Hospital. Modern diagnosis of brain tumors using new molecular markers has revolutionized the neurosurgical field in the last years. This modern diagnosis is only possible due to the excellent cooperation with the specialists in neuropathology.

For this Meeting we have invited Andreas von Deimling, who is the Chair of the Department of Neuropathology at the University of Heidelberg. He is one of the world leading experts in the field of methylation analyses to optimize diagnosis of brain tumors.

Our Meeting will provide a great opportunity to update the knowledge in this evolving field as well as exchange ideas with specialists in this field. We invite participants from all disciplines involved and interested in the management of brain tumors.

I am looking forward to welcoming you to this Meeting at the Medical University of Vienna/Vienna General Hospital.

Karl Rössler
Head of the Department of Neurosurgery,
MedUni Vienna/Vienna General Hospital

---

Programme

2.00 – 3:00 pm
Keynote lecture
Promoter methylation patterns for diagnosing human tumors
Andreas von Deimling,
Chair of the Department of Neuropathology at the University of Heidelberg

3.00 – 3.30 pm
Coffee break

3.30 – 4.00 pm
Seminar
Modern molecular methods in neuropathology
