Dear colleagues,

we cordially invite you to the „1st Vienna Interdisciplinary Endometriosis Masterclass“. In current complex medicine, subspecialization has become mainstream and various disciplines are involved in the treatment of endometriosis.

Especially the surgical treatment of deep infiltrating endometriosis often requires a joint effort by surgeons, urologists and gynecologists. With our interdisciplinary cadaver hands-on workshop, we intend to offer you not only improvement of your personal skills, but also a broader look at what is state of the art in other specialties.

Our course may encourage you to become a true sparring partner for your clinical colleagues and may impact treatment decision-making in a multidisciplinary setting for the benefit of patients with endometriosis.

The Team of the Certified Endometriosis Center of the Medical University of Vienna/Vienna General Hospital
Department of Obstetrics and Gynecology, MedUni Vienna/Vienna General Hospital, Austria

Limited number of participants.

**Course fee**
Specialists: € 700,-
Trainees: € 450,-
